

**3,000 ATTENDEES & EXHIBITORS | 50+ COUNTRIES REPRESENTED | 500+ ORAL PRESENTATIONS  
1,200+ POSTER SESSIONS | 2 STATE-OF-THE-ART SPEAKERS**

**THE AMERICAN TRANSPLANT CONGRESS (ATC) 2022 RESUMES IN-PERSON IN BOSTON TO  
SHOWCASE LATEST ADVANCES, CUTTING-EDGE RESEARCH FROM WORLD'S LEADING EXPERTS**

[The American Transplant Congress, ATC2022](#) will take place in-person once again from June 4 to June 8, 2022, with a robust program that includes new scientific and clinical information, discussions around care and management, and socioeconomic, ethical and regulatory issues relevant to organ and tissue transplantation. Highlights of this year's program include State-of-the-Art speakers Nancy Ascher, MD, PhD, of the University of California, San Francisco, discussing the U.S.'s role in global transplantation and Martine Rothblatt, PhD, Chairman, CEO and Founder of United Therapeutics Corp., discussing the first xenotransplanted heart.

Congress organizers planned a variety of formats that will encourage the exchange of new scientific and clinical information and support an interchange of opinions on issues relevant to organ and tissue transplantation. Scientific material will be presented through symposia, oral abstracts, concurrent workshops, and poster presentations, as well as small group sessions designed for in-depth exploration of both clinical and basic science topics.

The American Transplant Congress is the Joint Annual Meeting of the [American Society of Transplant Surgeons \(ASTS\)](#) and the [American Society of Transplantation \(AST\)](#). ATC provides a forum for exchange of new scientific and clinical information relevant to solid organ and tissue transplantation and brings together transplant physicians, scientists, nurses, organ procurement personnel, pharmacists, allied health professionals and other transplant professionals. The educational offerings provide attendees the opportunity to learn cutting-edge advances in research and the exchange of ideas and practice in the field of solid organ and tissue transplantation.

**Who Should Attend**

The American Transplant Congress is designed for physicians, surgeons, scientists, nurses, organ procurement personnel, pharmacists and other transplant professionals who are interested in the clinical and research aspects of solid organ and tissue transplantation. The meeting will provide the most current information in the field of transplant science.

This year, ATC will be returning to an in-person Congress which will take place at the John B. Hynes Convention Center in Boston, MA, USA. In-person attendees have the opportunity to gain access to innovators in the field while having their voice heard through various types of interaction.

In-person Registration includes:

- Invited Symposia
- Plenary & Oral Abstract Sessions
- Sponsored Satellite Symposia
- Meet-the-Expert Sessions
- Poster Abstract Chats
- Sponsor Product Theater Presentations
- In-Person Networking with Attendees
- In-Person Networking with Sponsors
- Live Stream Platform
- ATC OnDemand
- Education Credits (CME, ANCC, ACPE & ABTC)

ATC 2022 also offers a Virtual-Only attendee option for those unable to join in Boston. In-person sessions will be live streamed to the virtual audience in real-time, allowing the virtual audience the opportunity to submit questions to the in-person speakers in real-time.

Virtual Registration includes:

- Invited Symposia
- Plenary & Oral Abstract Sessions
- Sponsored Satellite Symposia
- Live Stream Platform
- ATC OnDemand
- Education Credits (CME, ANCC, ACPE & ABTC)

### **Real-Time Interactivity**

The 2022 program will provide ample opportunities for real-time interactivity through:

- Live In-person Discussions
- Invigorating Q&A Discussions Post-Presentation
- Live Presentations by Abstract Presenters
- Engaging, Unconventional Networking Breaks (In-person Attendees Only)
- Live Symposia

### **5 Days of Sessions**

**Congress organizers bring together all facets of research and discovery to include:**

- 124 Symposia with Presentations and Question & Answer
- 15 Meet-the-Expert sessions with access to experts in the field (In-person Attendees Only)
- 2 State-of-the-Art lectures from pioneers in the transplant field
- 1 Innovations in Transplantation session on Clinical Xenotransplant Updates

### **Abstracts Presentation Sessions**

This year, the layout is designed with specific time slots on the Scientific Program to engage with abstract presenters:

- **4 Plenary Abstract Sessions** with Presentations and Question & Answer
- **67 Rapid Fire Oral Abstract Sessions** with Presentations and Question & Answer
- **8 Poster Chat Sessions.** Conversation to take place in small groups (In-person Attendees Only)

In addition, ATC2022 features **In-Depth Symposia**, which are 2 and ½ hour sessions designed around a specific topic of interest. These sessions provide in-depth state-of-the-art information focused both on clinical and research areas from various perspectives, allowing attendees to make connections and incorporate the knowledge acquired into their everyday practice.

**Special Impact Sessions** offer attendees the chance to learn from Industry Innovators on how the transplant industry is transforming daily work lives for tomorrow's advancements. Attendees can expect to leave these sessions armed with cutting-edge information that will pave the way to the future of the industry.

**Focus in Transplantation** offers a deep dive into presentations on Basic and Translational science. Individual sessions on "Basic: OMICS in Transplantation" and "Translational: Translational Role of Biomarkers in Immune Profiling" will be presented.

For the second year, the **Innovations in Transplantation** session will take place. This year's session titled "[Clinical Xenotransplantation Updates](#)" will review the development of cutting-edge gene editing technology coupled with advances in novel immunosuppression, preclinical models of xenotransplantation in heart, kidney and islet to achieve significant advances. Featured members of the respective teams who performed landmark procedures will briefly discuss their findings followed by a discussion with experts in the field regarding the ethics and practical considerations that will be required as we consider clinical trials in xenotransplantation.

Again, this year, ATC offers a special **Women's Networking Event** that will go beyond the curriculum to discuss strategies to achieve personal and professional success. All In-person attendees are encouraged to attend this event.

This year's abstract sessions include **Plenary Oral Abstract Sessions**, which feature the ATC People's Choice Award Awards, giving attendees the chance to vote on the most impactful plenary abstract presented. In addition, the Congress features rapid Fire Abstract Presentations (five minutes each) with a question-and-answer period.

A new category of **Late-breaking Clinical Trial Abstracts** invites submissions of abstracts describing results of clinical trials in which results become available after the initial abstract deadline and can be presented at the conference. For the first time, ATC has accepted submissions that highlight ongoing trials of importance in transplantation without interim or final results available.

### **About the American Transplant Congress**

[The American Transplant Congress](#) is designed for physicians, surgeons, scientists, nurses, organ procurement personnel, pharmacists and other transplant professionals who are interested in the clinical and research aspects of solid organ and tissue transplantation. The meeting will provide the most current information in the field of transplant science. Early registration with discounted pricing for the meeting ends May 5, 2021. More information is available [HERE](#). To learn more, visit [www.atcmeeting.org](http://www.atcmeeting.org) or connect with ATC on [Twitter](#), [@ATCMeeting](#), [Facebook](#), and [Instagram](#) and [LinkedIn](#).

### **About the American Society of Transplant Surgeons**

The [American Society of Transplant Surgeons](#) (ATS) represents approximately 1,900 professionals dedicated to excellence in transplantation surgery. Our mission is to advance the art and science of transplant surgery through patient care, research, education, and advocacy. To learn more, visit [ASTS.org](#).

**About the American Society of Transplantation**

The [American Society of Transplantation](#) (AST) represents more than 4,000 transplantation professionals dedicated to advancing the field and improving patient care by promoting research, education, advocacy, and organ donation. The AST's diverse membership includes physicians, surgeons, scientists, nurses, allied health professionals, and administrators. For more information about the AST, please visit [myAST.org](#).
